Questions and comments

Visit our [website](#) or [help center](#) to learn more about SVG animation

Want to customize your icons? Sign up for SVGator for complete control!

Full timing control

Get full control over your animation with an easy-to-use keyframe based interface. Set easing functions: use presets or customize the easing graph.

Endless possibilities

Animate icons, logos, backgrounds, and other illustrations. Power up your SVG with various path, morph, filter, or color animations.

Just a click away

There is no need to download a software or plugin on your device. You can start animating SVG online from anywhere, at any time.
